

ILLEGAL RIDING THETFORD FOREST – THE POLICE WILL PROSECUTE

Following the recent Muntjac British Championship Enduro in Thetford Forest, the Forestry Commission has caught a number of illegal riders. Some of these riders are from outside of the Eastern Centre. The police have been provided with details of names and vehicles and have emphasised that they will make full use of all powers available to them. This includes the possibility of vehicles being seized and riders prosecuted for any offences. The police has also been provided with details of information on Facebook actively promoting illegal riding in the area.

The ACU has also previously made the situation clear that any member caught will, under the ACU National Sporting Code, have their licence suspended. In summary, if riders, whether licensed or not, continue to illegally ride in Thetford Forest, the likelihood of future events being held will be seriously reduced.
